EDUCATION

MEF University *Expected Graduation: 2028*

B.Sc. Electrical & Electronics Engineering — Istanbul, Turkey

- Relevant coursework: Circuit Analysis, Signals & Systems, Embedded Systems
- GPA: 3.01

SKILLS

Programming: Java, Python

Hardware & IoT: Arduino, IoT Sensors, Basic Circuit Design

Design & Tools: 3D Design (CAD), SketchUp, AutoCAD (currently learning)

Areas of Interest: IoT, Robotics, Renewable Energy, Sustainable Technology

PROJECTS

Optifarm — AI-Powered Agricultural Assistant *2026 – Present*

Co-Founder | github.com/kahramannkinali/OPTIFARM

- Attempted to build a startup AI assistant for farmers using data analysis and AI.
- Designed a system that analyses soil moisture and nutrient levels in different parts of the country and gives advice to farmers for optimum efficiency.
- Technologies used: HTML, Data Analytics

WORK EXPERIENCE

My First Internship – Sanver Engineering

No formal work experience yet — actively seeking internship opportunities.

CERTIFICATIONS

- Renewable Power and Electricity Systems (University of Colorado Boulder) — Coursera (2025)
- TalentCoders Tech Camp — TalentCoders (2025)
